

## Statement of Compliance to EU Packaging Directive 94/62/EC

Alliance Plast Ltd recognizes the importance of understanding its environmental responsibilities and complying with applicable laws and regulations to minimize adverse effects on human health and the environment.

Alliance Plast Ltd declares, that all goods produced and exported to customers of Alliance Plast Ltd, when leaving factory, meets the requirements of the EC Commission Directive, relating to Packages and Packaging waste – **EU Packaging Directive 94/62/EC**.

As in article 3 of the EU Packaging Directive 94/62/EC, (“packaging” shall mean all products made of any materials of any nature to be used for the containment, protection, handling, delivery and presentation of goods) this should cover all types of packaging delivered directly to customers of Alliance Plast Ltd.

We declare concerning presence heavy metals (CR 13695-1) or toxic materials (CR 13695-2) and meeting the requirements of art. 11/3:

- Sum of concentration of lead, cadmium, mercury and hexavalent chromium shall not exceed 100 ppm ( 100 mg/kg) (European Parliament and Council Directive 94/62/EC of 20 December 1994 on packaging and packaging waste) (CR 13695-1);
- Packaging doesn't present toxic or hazardous chemical substances or materials (CR 13695-2).

All migration tests are made by Latvian Certification Centre LATSERT INSPECTION Ltd (Id. No 50003298751).

Concerning the packaging essential requirements of Directive 94/62/EC we confirm the statement that all packaging components (**PP containers with lids and IML labels**) can be:

- Recycled concerning EN 13430;
- Energetically treated concerning EN 13431.

### Environmental protection

Used polypropylene packaging shall be disposed of, and packaging contaminated with hazardous chemical products shall be buried in special landfills in accordance with the established sanitary standards. Polypropylene packaging can be recycled.
